Operators Awaiting the Strike Outcome and Treasury Report.

London, However, Buys Another Big Batch of Railroad Stocks.

The Treasury Buys Heavily of Silver and 4 Per Cent.

HERE are too many important things hanging over the stock market to satisfy operators, many of whom are holding off pending the outcome of the New York Central strike and the Treasury policy in regard to the new silver coinage and bond purchases.

London, however, gave fresh evidence this morning of its confidence in American railway securities, and bought about 25,000 shares of various stocks, making something like 65,000 shares for the past two days.

Money has eased up considerably at that centre and less anxiety is felt about South American masters.

The foreign buying stiffened prices at the opening, but as the day wore along weakness set in and the early advance was not only lost but a number of stocks scored reactional declines.

The weakness was partly due to reports that the employees of the Albany and Schenectady road at Albany had gone out on strike.

Sugar certificates sold at 80% & 81%. Perfumed Sugar was advanced 1-10 of a cent per pound on all grades this morning.

Stocks closed up stronger on the announcement from Washington that the Treasury had purchased \$10,000 ounces of silver and \$1,075,000 4 per cent bonds.

Money ranged between 10 and 2 per cent, and was decidedly easier.

As a result, sterling exchange was a shade firmer. The supply of bills is small.

At public auction to-day a membership of the New York Product Exchange, all dues paid, sold for \$750.

Total sales of listed stock \$10,000 shares of silver, 100,000 ounces, and oil, 17,000 barrels.

THE CLOSING QUOTATIONS.
